23 June 1958

MEMORANDUM FOR: Special Assistant to the Deputy Director for
Intelligence (Planning)

SUBJECT : Modifications of ORR's First Priority Contribution to
the IAC's "Top 30" List for the DD/P

REFERENCE : Meeting in the Office of the SA/DD/I(Planning) on 12 June

1. At reference meeting, it was pointed out that ORR's contribution did not include requirements for guided missiles or nuclear energy, and that ORR-OSI coordinated requirements on these problems would be forwarded shortly. Attached is the Secret version of the joint ORR-OSI guided missile requirement. A special annex to Part III of the requirement is being forwarded simultaneously through other channels. ORR's needs in the field of nuclear energy will be reflected in OSI's contribution.

2. Our changes concern only the ORR First Priority on Aircraft. We would like to rephrase Part I and Part II of ORR's aircraft requirement. Part I, "Statement of Priority and Background", should be changed to read:

25X1B4d 'A first priority exists for information of production rates of new heavy bombers, advanced fighters, and nuclear powered aircraft. The current production of Soviet heavy bombers is well below capacity, and there is reason to believe that the USSR may be converting to the production of new types of heavy bombers and advanced fighters. It is also suspected that preparations are under way for the production of nuclear powered aircraft.'

In Part II, "Justification", omit the first paragraph. Change the second paragraph to read:

'Information of production, and the plans and policies thereof, would bear directly - - - - -.'
